

KTM 690 2019-2022 Husqvarna 701 2019-2022

1. mount the front part at the cylinder head, leaving the nuts loose!!!

2. Part rear part of the exhaust manifold

- change the bracket clip for attachment to the frame

-It is important not to forget the spacer.

- attach the exhaust cover

-We'll leave everything free ...

3. Remove the part bracket for silencer with rubber from the tank, and mount it on the DVR silencer as shown on the picture .

-reassemble on the tank with spacers
